## MOSSADEGH ENTERPRISES

Founded in 1999, Mossadegh Enterprises provides management and business consulting internationally. Our specific focus is on developing business solutions to enhance service excellence that empowers and equips our clients to be more Efficient, Effective and Successful.

Mossadegh Enterprises draws from a team of highly specialist and experienced individuals. We bring expertise, efficiency and improvement to an organisation via the development and implementation of business solutions appropriate for the business goals.

## OUR VISION

“We help our clients to create and improve their business and management processes to achieve commercial success, which not only has an impact on the organisation, but will also be recognised by their customers and community at large”.

Our clients invest a significant amount of time, money and effort to achieve their goals. We understand their needs and requirements. Our business services are tailored to support their business success.

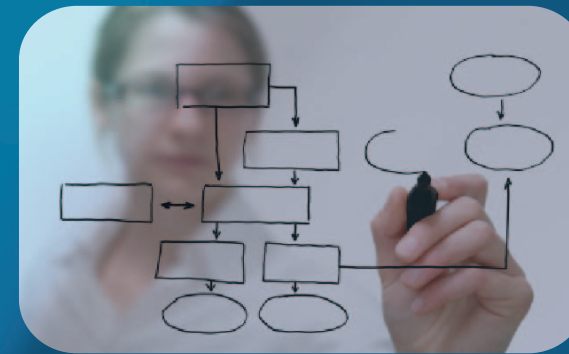

A key strength to our success is access to a network of specialised resources. Through these resources, Mossadegh Enterprises are able to provide specialized and knowledge business services specially tailored to your needs.

Our business services in summary include:

- Business Process Improvement
- Business Service Management
- Service Oriented Strategies
- Service Operations Management
- Service Portfolio Management
- Commercial & Contract Management
- Negotiations & Risk Mitigation
- Improving productivity & Customer Service
- Developing Competitive Advantage Strategies

We pride ourselves in providing efficient advice as well as operational services for individual and corporate needs. These services are individually tailored to suit requirements and needs of many operations.

## OUR APPROACH

Mossadegh Enterprises recognises that no one company has all the answers. As a result, we offer our clients access to a wide range of business service experts drawn from a variety of disciplines.

Our approach involves:

- A networking approach through access to highly specialised resources.
- Understanding and definition of your business goals.
- Respect and understanding of diverse business and social cultures.
- Working together with our clients through teamwork to find solutions.
- Action and results oriented.
- Commitment and Dedication.
- Being transparent to our clients in our endeavours.
- Openness and considerate to new ideas.
- Enjoying what we do, but taking our work seriously.

Our approach also allows us to provide advice and direction on matters relating to varying cultural and ethnic jurisdictions. Specifically, we are able to provide a link between your traditional market and their cultural norms to other international markets and their accepted practice and operation.

You can rely on our ability to understand your cultural background, to advise and direct through the complex cultural and commercial obstacles and avoid misunderstandings that can occur by entry into unfamiliar business environments.

## EXPERTISE

Our team, comprising a network of professionals of varied backgrounds, provide operational and business services to corporations in Australia and Overseas. Utilising their expert skills Mossadegh Enterprises works with your organization to understand its strengths, weaknesses and challenges so that more efficient and effective business systems, models and processes can be designed and implemented to achieve the business goals.

The range of expertise in our network allows us to select advisors who have the skills, knowledge and applicable industry experience to deliver the right outcomes that will drive your business forward.
